

Sponsorship Packet

August 3-5, 2018

We are offering your organization the opportunity to sponsor one of the most dynamic music festivals in North America. Each year, over 8,000 people from across the U.S. make the odyssey to the Kenai Peninsula to attend Salmonfest, Alaska's largest music festival.

As a 501(c)(3) Salmonfest has generated hundreds of thousands of dollars for Kachemak Bay Conservation Society, Cook Inletkeeper, and Musicians United For Bristol Bay, et al, directed towards the preservation of salmon and salmon habitat, including but not limited to, the streams, ocean, rivers, and lakes of the Bristol Bay watershed (The world's largest and wildest salmon habitat, again under threat by Pebble mine.).

Please take a moment to look through the sponsorship options. This offers a general idea of what we can deliver. We are willing and able to custom design a package that fits your particular needs and desires most effectively.

We have almost 9,000 followers on Facebook, Instagram, Twitter, and other social media accounts. We also distribute

hundreds of thousands of promotional materials through a variety of mediums, throughout the year, including a 16 page full color program inserted into 30,000 copies of Coast magazine distributed throughout the state of Alaska during the summer of the festival.

We look forward to working with you!
